The local and foreign trade in Hongroup and at the The local and foreign trade in Hongroup and at the local and foreign trade in Hongroup and at the local and local in Japan has increased so rapidly within the last top years that additional Banking. facilities are fell to be required. The Banks now in China being only branche of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive
